Blending Indian Ethos
with International Excellence

Our Philosophy & Core Values

Shrutham School believes that by pursuing knowledge rooted in the timeless wisdom of ancient Bhartiya traditions and guided by the progressive values of modern education, our children can face any challenge in life.

Wisdom:

Cultivating lifelong learning through intellectual curiosity, critical thinking, and a balanced curriculum that blends traditional knowledge and modern science.

Harmony:

Respecting diversity and fostering inclusivity. Our students embody unity in diversity through empathy and collaboration.

Dharma:

Nurturing righteousness and integrity. Students are guided by ethical principles, a sense of duty, and reflective moral education.

Our Vision

To establish "Shrutham" on the principles and wisdom of Dharma (righteousness) to empower young minds to excel in a dynamic world, equipped with the knowledge of the past, the skills of the present, and the vision for the future.

Our Mission

To ensure the holistic development of our children through education rooted in Bhartiya Values and global best practices.

To inspire students to think critically, communicate effectively, and solve problems creatively.

To instill a strong foundation of cultural heritage while embracing innovation and global perspectives.

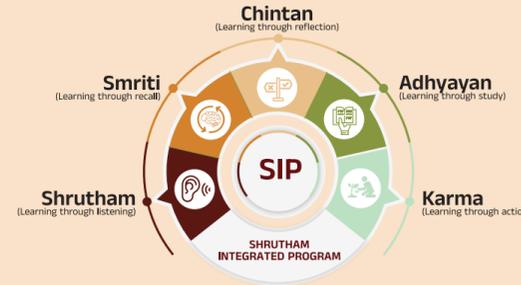

Shrutham Integrated Program (SIP)

The Shrutham Integrated Program (SIP) is a thoughtfully designed framework that harmonizes national rigor with international pedagogies, grounded in five transformative learning pathways that nurture the mind, body, and spirit of every learner.

Curriculum

- Integrated curriculum combining National and International curriculums.
- Strong CBSE foundation enhanced by skill-building and global perspectives.
- Prepares students for both Indian and international academic pathways.
- Emphasis on conceptual clarity, application, and international outlook.

Philosophical Foundation & Learning Methodologies

We follow a research-driven, value-oriented approach rooted in the 5 Shrutham Pathways. Each method answers a vital question in the learning journey:

| | Why | What | How |
|---|--|---|---|
| Shrutham (Learning through Listening) | To build focus, discipline, and receptive intellect in children. | Storytelling, oral recitation, and interactive group discussions. | Students become active listeners and mindful communicators, equipped to process complex ideas with clarity and respect. |
| Smriti (Learning through Recall) | To strengthen memory and deepen understanding. | Daily recaps, repetition of concepts, Japa (focused repetition), memory games, and quizzes. | Builds strong memory retention, supports academic performance, and nurtures inner discipline. |
| Chintan (Learning through Reflection) | To develop self-awareness and thoughtful decision-making. | Journalling, guided meditation, self-inquiry, and philosophical contemplation. | Students learn to understand themselves, manage emotions, and make decisions grounded in clarity and purpose. |
| Adhyayan (Learning through Study) | To foster independence and passion for inquiry. | Project-based learning, topic exploration, and the Guru-Shishya mentoring model. | Encourages initiative, personal responsibility, and deep understanding through hands-on experiences. |
| Karma (Learning through Action) | To create balanced, self-reliant individuals who learn by doing. | Experiential activities like gardening, cooking, field trips, workshops, arts, and community service. | Instills practical skills, nurtures empathy, and connects knowledge with real-life applications. |

Learner Profile & Traits

Rooted in the Shrutham Methodology and aligned with IB Learner Attributes

| Shrutham Attribute | IB Alignment | Short Description |
|--------------------|--------------------------|--|
| Chintak | Thinker, Reflective | Thinks deeply and asks meaningful questions. |
| Jigyasu | Inquirer, Open-minded | Explores, experiments, and learns by doing. |
| Manan Shrota | Communicator, Reflective | Listens with focus and absorbs ideas. |
| Smritivan | Knowledgeable, Thinker | Links past knowledge to new learning. |
| Karmik | Principled, Caring | Acts with purpose and responsibility. |
| Snehi Sahachar | Caring, Communicator | Cooperates and shows empathy. |
| Sahasi | Risk-taker | Embraces challenges and tries confidently. |
| Santulit | Balanced | Maintains balance in body, mind, and emotions. |
